

BioGaia Protectis chewable tablets with vitamin D

More science – Less to prove

BioGaia Protectis tabs with vitamin D₃ is a convenient way to maintain digestive health and function and at the same time get a daily supplement of vitamin D₃.

One chewable tablet contains 100 million active *Limosilactobacillus** *reuteri* Protectis (*L. reuteri* DSM 17938) bacteria and 10/20 µg (400/800 IU) of vitamin D₃. *L. reuteri* Protectis has been shown to maintain digestive health and function and to keep the body's natural defence. Vitamin D is essential for the contribution of a healthy functioning of the immune system. It is also essential for maintaining normal muscle function and normal bones.

- Documented and safe probiotic strain and vitamin D₃ in one convenient product
- *L. reuteri* Protectis clinically proven to maintain digestive health and function and to keeping the body's natural defence¹⁻⁴
- Gives a daily supplement of vitamin D₃ for the contribution of a healthy functioning of the immune system
- Safe and suitable for long term use
- Convenient to take wherever and whenever wanted
- Chewable tablets with orange flavor

Available in blister packs of 10, 20 or 30 tablets and in plastic containers of 30, 60 or 90 tablets.

* Previously *Lactobacillus*

Please note: Positive effects of *Lactobacillus reuteri* seem to be strain-dependent (i.e. specific for particular strains) and should not be ascribed to other strains. Based on FAO/WHO statement from 2001 (FAO/WHO, Argentina 1-4.10.2001).

Ingredients: Bulking agent (isomalt), sweetener (xylitol), *L. reuteri* DSM 17938, orange flavoring, vitamin D₃ and flavor enhancer (citric acid).
Net weight per tablet, 450 mg.

Shelf life: 24 months in maximum 25 °C/77 °C.
